Subject index

A

Abutment prosthesis, endodontic (Sapone), 210

Acid solubility and fluoride content of enamel, influence of composition on: zinc silicophosphate cement (Phillips et al.), 628

Acrylic resin models, life-like, fabrication of (Shearer), 118

temporary crown, direct technique for fabricating, using Omnivac (Sotera), 577

tooth implant. III. Continuing report (Ashman), 549

Adjustable vs. semiadjustable articulators, Part I. Significance of articulabor capabilities (Bellanti), 269

Adult men, young, jaw movements in, during chewing (Gillings, Graham, and Duckmanton), 616

Air pressure–vacuum investing (Chandler et al.), 225

Alloy, gold casting, bond strength of two types of cement to (Ady and Fairhurst), 217

Alveolar resorption, gross, management of (Hobkirk), 397

Amalgam cavity design, analysis of (Terkla, Mahler, and Van Eysden), 204

restorations, conservative (Almquist, Cowan, and Lambert), 524

marginal failure of, in primary teeth related to material selection and proximal retention (Mathewson, Retzlaff, and Porter), 288

zinc-containing and zinc-free, comparison of (Watson, Phillips, Swartz, and Gilmore), 536

American Academy of Restorative Dentistry, report of Committee on Scientific Investigation of (Smith), 647

American—Cont'd

(Caucasian) and Japanese (Oriental) adults, comparison of: cephalometric study of tooth position as related to facial structure in profiles of human beings (Reitz et al.), 157

Analysis, graphic, of hinge motion on sagittal plane (Knap, Espinoza, and Ziebert), 390

Anterior porcelain-veneer crown preparation, modified lower (Locke), 611

Arches, distally edentulous dental, technique to record jaw relations for (Wagner), 405

Articulator(s) capabilities, significance of. Part I. Adjustable vs. semiadjustable articulators (Bellanti), 269

semiadjustable, use of lateral interocclusal records in (Azarmehr and Yarmand), 330

Artificial complete crown restorations, facial and lingual contours of, and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61

Attachments, Ceka extracoronal (Waltz), 167

classification and selection of (Mensor), 494

Attitudes and other personality characteristics related to tolerance for pain: myofascial pain-dysfunction syndrome (Lupton and Johnson), 323

B

Band, copper-, gingival retraction to produce void-free crown and bridge impressions (Darby and Darby), 513

Bar design, lingual (Cecconi), 635

January, pp. 1-128; February, pp. 129-240; March, pp. 241-354; April, pp. 355-472; May, pp. 473-590; June, pp. 591-704.

Base(s), complete denture, retention of, having different types of posterior palatal seal, comparison of (Avant), 484
denture, nature of: key factor in denture sore mouth (Miner), 250
Bite plane construction, technique for (Shulman), 334
Bond strength of two types of cement to gold casting alloy (Ady and Fairhurst), 217
Bone resorption and prosthodontics (Fenton), 477
Book reviews, 236, 351, 463
Bridge impressions, void-free crown and, copper-band gingival retraction to produce (Darby and Darby), 513

C

Casting(s) alloy, gold, bond strength of two types of cement to (Ady and Fairhurst), 217
surface roughness of, made by various casting techniques (Fusayama and Yamane), 529
technique(s), combined chew-in-one-piece, for fixed restorations (Edalat and Khadjavi), 632
various, surface roughness of castings made by (Fusayama and Yamane), 529
Caucasian (American) and Japanese (Oriental) adults, comparison of: cephalometric study of tooth position as related to facial structure in profiles of human beings (Reitz et al.), 157
Cavity design, amalgam, analysis of (Terkla, Mahler, and Van Eysden), 204
Ceka extracoronal attachments (Waltz), 167
Cement, two types of, bond strength of, to gold casting alloy (Ady and Fairhurst), 217
zinc silicophosphate: influence of composition on acid solubility and fluoride content of enamel (Phillips et al.), 628
Centric relation, exercise therapy for accurate recording of (Nasr and Griffiths), 5
locating, with leaf gauge (Long), 608
Cephalometric study of tooth position as related to facial structure in profiles of human beings: comparison of Japanese (Oriental) and American (Caucasian) adults (Reitz et al.), 157
Characteristics, other personality, and attitudes, related to tolerance for pain: myofascial pain-dysfunction syndrome (Lupton and Johnson), 323
Chew-in-one-piece casting technique, combined, for fixed restorations (Edalat and Khadjavi), 632
Chewing, jaw movements in young adult men during (Gillings, Graham, and Duckmanton), 616
Clasp design for extension-base removable partial dentures (Krol), 408
repair for removable partial dentures (Smith), 231
Classification and selection of attachments (Mensor), 494
Clinical evaluation of materials used intraorally, analysis of (Knoblauch and Reynik), 244
performance, physical properties vs., of pure gold restorations (Richter and Mahler), 434
speech considerations in prosthodontics: perspectives of prosthodontist and speech pathologist (Chierici and Lawson), 29
Color matching in dentistry. Part I. Three-dimensional nature of color (Sproull), 416
Part II. Practical applications of organization of color (Sproull), 556
Committee on Scientific Investigation of American Academy of Restorative Dentistry, report of (Smith), 647
Complete-coverage restoration and gingival sulcus (Berman), 301
crown(s) constructed for existing partial denture (Thurgood, Thayer, and Lee), 507
restorations, artificial, facial and lingual contours of, and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61

Complete—Cont'd
denture(s) bases, retention of, having different types of posterior palatal seal, comparison of (Avant), 484
method for treating "hopeless gagger" for: marble technique (Singer), 146
posterior palatal seal, maxillary: variations in size, shape, and location (Winland and Young), 256
processing changes in: posterior tooth contacts and pin opening (Wesley et al.), 46
Composition, influence of, on acid solubility and fluoride content of enamel: zinc silicophosphate cement (Phillips et al.), 628
Construction, kit, of silver electroplater (Krug), 640
Consultation services, joint, by periodontist and prosthodontist (Nassif and Blumenfeld), 55
Contouring of preformed crowns, accurate (Wiland), 221
Contours, facial and lingual, of artificial complete crown restorations and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61
Coping and jaw relationships, transfer of, technique for (Smukler, Lemmer, and Hagemann), 183
Copper-band gingival retraction to produce void-free crown and bridge impressions (Darby and Darby), 513
Core and post fabrication, use of standardized tapered plastic pins in (Weine, Kahn, Wax, and Taylor), 542
Courses, postgraduate and refresher, 121, 465
Cranial implants, use of polyethylene in (Polisar and Cook), 310
Crown(s), acrylic resin temporary, direct technique for fabricating, using Omnivac (Sotera), 577
and bridge impressions, void-free, copper-band gingival retraction to produce (Darby and Darby), 513
complete, constructed for existing partial denture (Thurgood, Thayer, and Lee), 507
Crown(s)—Cont'd
preformed, accurate contouring of (Wiland), 221
preparation, modified lower anterior porcelain-veneer (Locke), 611
restorations, artificial complete, facial and lingual contours of, and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61

D

Defects, maxillary, disposable obturator for (Toremalm), 94
Deflasking, easy, flasking for (Javid and Boucher), 581
Dental arches, distally edentulous, technique to record jaw relations for (Wagner), 405
Dentistry, American Academy of Restorative, report of Committee on Scientiific Investigation of (Smith), 647
color matching in. Part I (Sproull), 416; Part II (Sproull), 556
modern, concept of (Dykins), 191
operative, lighting requirements for, investigation into (Johns and Boyd), 195
Dentists who may be considered especially proficient in prosthodontics, guidelines for determination of (Federation of Prosthodontic Organizations), 348
Denture(s) base(s), complete, retention of, having different types of posterior palatal seal, comparison of (Avant), 484
nature of: key factor in denture sore mouth (Miner), 250
complete, method for treating "hopeless gagger" for: marble technique (Singer), 146
processing changes in: posterior tooth contacts and pin opening (Wesley et al.), 46
esthetics, principles of visual perception and their clinical application to (Lombardi), 358
existing partial, complete crowns constructed for (Thurgood, Thayer, and Lee), 507
extension-base removable partial, clasp design for (Krol), 408

Denture(s)—Cont'd
posterior palatal seal, maxillary complete: variations in size, shape, and location (Winland and Young), 256
removable maxillary partial, dentists' designs of, variability in (Frantz), 172
partial, clasp repair for (Smith), 231
retention, study of some factors associated with (Avant), 383
service, immediate (LaVere and Krol), 10
simplification, introduction to. Phase II (Pound and Murrell), 598
teeth, fractured porcelain, repair of (Jochen), 228
telescope (Perel), 151
Design(s), amalgam cavity, analysis of (Terkla, Mahler, and Van Eysden), 204
clasp, for extension-base removable partial dentures (Krol), 408
lingual bar (Cecconi), 635
matrix, for molar splinting (Light and Rakow), 285
preparation, and margin distortion in porcelain-fused-to-metal restorations (Shillingburg, Hobo, and Fisher), 276
of removable maxillary partial denture, dentists', variability in (Frantz), 172
Device(s), radiation docking (Carl, Schaaf, and Schoemann), 97
training, for group instruction in occlusal equilibration (Bartlett and Elliott), 517
Diamond points, use of scanning electron microscopy for evaluating (Janota), 88
Directory, 126, 238, 352, 470, 588, 683
Distally edentulous dental arches, technique to record jaw relations for (Wagner), 405
Distortion, margin, and preparation design in porcelain-fused-to-metal restorations (Shillingburg, Hobo, and Fisher), 276
Docking device, radiation (Carl, Schaaf, and Schoemann), 97
Dynamic stresses encountered in impression removal (Collard, Caputo, Standlee, and Trabert), 498
Dysfunction-pain problems, temporomandibular joint, can be solved (Dawson), 100
syndrome, myofascial: attitudes and other personality characteristics related to tolerance for pain (Lupton and Johnson), 323

E

Edentulous dental arches, distally, technique to record jaw relations for (Wagner), 405
patients, speech patterns of, and morphology of palate in relation to phonetics (Tamaka), 16
Electric pulp tester, tissue response to (McDaniel, Rowe, and Charbeneau), 84
Electron microscopy, scanning, use of, for evaluating diamond points (Janota), 88
Electroplater, silver, kit construction of (Krug), 640
Enamel, acid solubility and fluoride content of, influence of composition on: zinc silicophosphate cement (Phillips et al.), 628
Endodontic abutment prosthesis (Sapone), 210
Equilibration, occlusal, effect of skull distortion on (Silverman), 425
training devices for group instruction in (Bartlett and Elliott), 517
Esthetics, denture, principles of visual perception and their clinical application to (Lombardi), 358
Exercise therapy for accurate recording of centric relation (Nasr and Griffiths), 5
Extension-base removable partial dentures, clasp design for (Krol), 408
Extracoronal attachments, Ceka (Waltz), 167

F

Face-bow transfer instrument, pantograph as (Moberg, Yoder, and Thayer), 139
Facial geometry, new method of measuring (Lange and Lange), 132
and lingual contours of artificial complete crown restorations and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61

Facial—Cont'd
structure in profiles of human beings, cephalometric study of tooth position as related to: comparison of Japanese (Oriental) and American (Caucasian) adults (Reitz et al.), 157
Federation of Prosthodontic Organizations: annual meeting report, 1972 (Wood), 340
Fixed restorations, combined chew-in–one-piece casting technique for (Edalat and Khadjavi), 632
Flasking for easy deflasking (Javid and Boucher), 581
Fluoride content of enamel, acid solubility and, influence of composition on the: zinc silicophosphate cement (Phillips et al.), 628
Fractured porcelain denture teeth, repair of (Jochen), 228

G

Gagger, hopeless, method for treating, for complete dentures: marble technique (Singer), 146
Gauge, leaf, locating centric relation with (Long), 608
Geometry, facial, new method of measuring (Lange and Lange), 132
Gingiva, human, response of, to restorative materials (Trivedi and Talim), 73
Gingival retraction, copper-band, to produce void-free crown and bridge impressions (Darby and Darby), 513
sulcus, complete-coverage restoration and (Berman), 301
Gold casting alloy, bond strength of two types of cement to (Ady and Fairhurst), 217
inlay failures and some causes (Fayle), 439
restorations, pure, physical properties vs. clinical performance of (Richter and Mahler), 434
Graphic analysis of hinge motion on sagittal plane (Knap, Espinoza, and Ziebert), 390
Guidelines for determination of dentists who may be considered especially proficient in prosthodontics (Federation of Prosthodontic Organizations), 348

H

Headholder for oriented temporomandibular joint radiographs (Buhner), 113
Hinge motion, graphic analysis of, on sagittal plane (Knap, Espinoza, and Ziebert), 390
Human beings, facial structure in profiles of, cephalometric study of tooth position as related to: comparison of Japanese (Oriental) and American (Caucasian) adults (Reitz et al.), 157
gingiva, response of, to restorative materials (Trivedi and Talim), 73

I

Immediate denture service (LaVere and Krol), 10
Implant(s), acrylic resin tooth. III. Continuing report (Ashman), 549
cranial, use of polyethylene in (Polisar and Cook), 310
Impression(s) making, principles involved in (Logan), 594
removal, dynamic stresses encountered in (Collard, Caputo, Standlee, and Trabert), 498
void-free crown and bridge, copper-band gingival retraction to produce (Darby and Darby), 513
Inlay failures, gold, and some causes (Fayle), 439
Instruction, group, in occlusal equilibration, training devices for (Bartlett and Elliott), 517
Instrument, face-bow transfer, pantograph as (Moberg, Yoder, and Thayer), 139
Interocclusal records, lateral, use of, in semi-adjustable articulators (Azarmehr and Yarmand), 330
registrations, wax, determination of accuracy of. Part II (Millstein, Clark, and Kronman), 40
Intraorally, materials used, analysis of clinical evaluation of (Knoblauch and Reynik), 244
Investigation, Scientific, Committee on, of American Academy of Restorative Dentistry, report of (Smith), 647
Investing, vacuum–air pressure (Chandler et al.), 225

J

Japanese (Oriental) and American (Caucasian) adults, comparison of: cephalometric study of tooth position as related to facial structure in profiles of human beings (Reitz et al.), 157

Jaw and coping relationships, transfer of, technique for (Smukler, Lemmer, and Hagemann), 183

guidance, effect of, on retruded stroke as recorded in sagittal plane (Ziebert and Knap), 262

movements in young adult men during chewing (Gillings, Graham, and Duckmanton), 616

speech (Gillings), 567

relations, technique to record, for distally edentulous dental arches (Wagner), 405

Joint pain-dysfunction problems, temporomandibular, can be solved (Dawson), 100

radiographs, oriented temporomandibular, headholder for (Buhner), 113

K

Kit construction of silver electroplater (Krug), 640

L

Lateral interocclusal records, use of, in semiadjustable articulators (Azarmehr and Yarmand), 330

Leaf gauge, locating centric relation with (Long), 608

Lighting requirements for operative dentistry, investigation into (Johns and Boyd), 195

Lingual bar design (Cecconi), 635

contours, facial and, of artificial complete crown restorations and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61

Load transfer, mechanics of, by retentive pins (Caputo, Standlee, and Collard), 442

Location, size, and shape, variations in: maxillary complete denture posterior palatal seal (Winland and Young), 256

M

Marble technique: method for treating "hopeless gagger" for complete dentures (Singer), 146

Margin distortion and preparation design in porcelain-fused-to-metal restorations (Shillingburg, Hobo, and Fisher), 276

Marginal failure of amalgam restorations in primary teeth related to material selection and proximal retention (Mathewson, Retzlaff, and Porter), 288

Matching, color, in dentistry. Part I. Three-dimensional nature of color (Sproull), 416

Part II. Practical applications of organization of color (Sproull), 556

Material(s), restorative, response of human gingiva to (Trivedi and Talim), 73

selection and proximal retention, marginal failure of amalgam restorations in primary teeth related to (Mathewson, Retzlaff, and Porter), 288

used intraorally, analysis of clinical evaluation of (Knoblauch and Reynik), 244

Matrix design for molar splinting (Light and Rakow), 285

Maxillary complete denture posterior palatal seal: variations in size, shape, and location (Winland and Young), 256

defects, disposable obturator for (Toremalm), 94

partial denture, removable, dentists' designs of, variability in (Frantz), 172

Measuring facial geometry, new method of (Lange and Lange), 132

Mechanics of load transfer by retentive pins (Caputo, Standlee, and Collard), 442

Meeting report, annual, 1972: Federation of Prosthodontic Organizations (Wood), 340

Metal restorations, porcelain-fused-to-, preparation design and margin distortion in (Shillingburg, Hobo, and Fisher), 276

Microscopy, scanning electron, use of, for evaluating diamond points (Janota), 88

Mobile teeth, nonparallel pin splinting for (Tautin and Miller), 67
Models, life-like acrylic resin, fabrication of (Shearer), 118
Modern dentistry, concept of (Dykins), 191
Molar splinting, matrix design for (Light and Rakow), 285
Morphology of palate, speech patterns of edentulous patients and, in relation to phonetics (Tanaka), 16
Mouthstick for quadriplegic patients (Blaine and Nelson), 317
Myofascial pain-dysfunction syndrome: attitudes and other personality characteristics related to tolerance for pain (Lupton and Johnson), 323

O

Obturator, disposable, for maxillary defects (Toremalm), 94
Occlusal equilibration, effect of skull distortion on (Silverman), 425
training devices for group instruction in (Bartlett and Elliott), 517
Ocular prosthesis: physiologic system (Bartlett and Moore), 450
Omnivac, direct technique for fabricating acrylic resin temporary crowns using (Sotera), 577
One-piece–chew-in casting technique, combined, for fixed restorations (Edalat and Khadjavi), 632
Operative dentistry, lighting requirements for, investigation into (Johns and Boyd), 195
Organizations, Federation of Prosthodontic: annual meeting report, 1972 (Wood), 340
Oriental (Japanese) and American (Caucasian) adults, comparison of: cephalometric study of tooth position as related to facial structure in profiles of human beings (Reitz et al.), 157

P

Pain-dysfunction problems, temporomandibular joint, can be solved (Dawson), 100
syndrome, myofascial: attitudes and other personality characteristics related to tolerance for pain (Lupton and Johnson), 323
Pain—Cont'd
tolerance for, attitudes and other personality characteristics related to: myofascial pain-dysfunction syndrome (Lupton and Johnson), 323
Palatal seal, maxillary complete denture posterior: variations in size, shape, and location (Winland and Young), 256
posterior, different types of, comparison of retention of complete denture bases having (Avant), 484
Palate, morphology of, speech patterns of edentulous patients and, in relation to phonetics (Tanaka), 16
Pantograph as face-bow transfer instrument (Moberg, Yoder, and Thayer), 139
Partial denture(s), existing, complete crowns constructed for (Thurgood, Thayer, and Lee), 507
extension-base removable, clasp design for (Krol), 408
removable, clasp repair for (Smith), 231
maxillary, dentists' designs of, variability in (Frantz), 172
Pathologist, speech, prosthodontist and, perspectives of: clinical speech considerations in prosthodontics (Chierici and Lawson), 29
Patterns, speech, of edentulous patients and morphology of palate in relation to phonetics (Tanaka), 16
Perception, visual, principles of, and their clinical application to denture esthetics (Lombardi), 358
Periodontist and prosthodontist, joint consultation services by (Nassif and Blumenfeld), 55
Periodontium, facial and lingual contours of artificial complete crown restorations and their effects on (Yuodelis, Weaver, and Sapkos), 61
Personality characteristics, other, and attitudes, related to tolerance for pain: myofascial pain-dysfunction syndrome (Lupton and Johnson), 323

Phonetics, speech patterns of edentulous patients and morphology of palate in relation to (Tanaka), 16
Physical properties vs. clinical performance of pure gold restorations (Richter and Mahler), 434
Physiologic system: ocular prosthesis (Bartlett and Moore), 450
Pin(s), new self-threading (Mattos), 81
opening and posterior tooth contacts: processing changes in complete dentures (Wesley et al.), 46
placement, pulpal response to (Schuchard and Reed), 292
retentive, mechanics of load transfer by (Caputo, Standlee, and Collard), 442
splinting, nonparallel, for mobile teeth (Tautin and Miller), 67
standardized tapered plastic, use of, in post and core fabrication (Weine, Kahn, Wax, and Taylor), 542
Plane construction, bite, technique for (Shulman), 334
sagittal, effect of jaw guidance on retruded stroke as recorded in (Ziebert and Knap), 262
graphic analysis of hinge motion on (Knap, Espinoza, and Ziebert), 390
Plastic pins, standardized tapered, use of, in post and core fabrication (Weine, Kahn, Wax, and Taylor), 542
Polyethylene, use of, in cranial implants (Polisar and Cook), 310
Porcelain denture teeth, fractured, repair of (Jochen), 228
fused-to-metal restorations, preparation design and margin distortion in (Shillingburg, Hobo, and Fisher), 276
veneer crown preparation, modified lower anterior (Locke), 611
Post and core fabrication, use of standardized tapered plastic pins in (Weine, Kahn, Wax, and Taylor), 542
Posterior palatal seal, different types of, comparison of retention of complete denture bases having (Avant), 484
Posterior palatal seal—Cont'd
maxillary complete denture: variations in size, shape, and location (Winland and Young), 256
tooth contacts and pin opening: processing changes in complete dentures (Wesley et al.), 46
Postgraduate and refresher courses, 121, 465
Preformed crowns, accurate contouring of (Wiland), 221
Preparation design and margin distortion in porcelain-fused-to-metal restorations (Shillingburg, Hobo, and Fisher), 276
modified lower anterior porcelain-veneer crown (Locke), 611
Primary teeth, marginal failure of amalgam restorations in, related to material selection and proximal retention (Mathewson, Retzlaff, and Porter), 288
Principles involved in impression making (Logan), 594
Processing changes in complete dentures: posterior tooth contacts and pin opening (Wesley et al.), 46
Profiles of human beings, facial structure in, cephalometric study of tooth position as related to: comparison of Japanese (Oriental) and American (Caucasian) adults (Reitz et al.), 157
Properties, physical, vs. clinical performance of pure gold restorations (Richter and Mahler), 434
Prosthesis, endodontic abutment (Sapone), 210
ocular: physiologic system (Bartlett and Moore), 450
Prosthodontic(s), bone resorption and (Fenton), 477
clinical speech considerations in: perspectives of prosthodontist and speech pathologist (Chierici and Lawson), 29
guidelines for determination of dentists who may be considered especially proficient in (Federation of Prosthodontic Organizations), 348

Prosthodontic(s)—Cont'd
Organizations, Federation of: annual meeting report, 1972 (Wood), 340
Prosthodontist and periodontist, joint consultation services by (Nassif and Blumenfeld), 55
and speech pathologist, perspectives of: clinical speech considerations in prosthodontics (Chierici and Lawson), 29
Proximal retention and material selection, marginal failure of amalgam restorations in primary teeth related to (Mathewson, Retzlaff, and Porter), 288
Pulp tester, electric, tissue response to (McDaniel, Rowe, and Charbeneau), 84
Pulpal response to pin placement (Schuchard and Reed), 292

Q

Quadriplegic patients, mouthstick for (Blaine and Nelson), 317

R

Radiation docking device (Carl, Schaaf, and Schoemann), 97
Radiographs, oriented temporomandibular joint, headholder for (Buhner), 113
Readers' round table, 235, 586
Recording of centric relation, accurate, exercise therapy for (Nasr and Griffiths), 5
Records, lateral interocclusal, use of, in semi-adjustable articulators (Azarmehr and Yarmand), 330
Refresher courses, postgraduate and, 121, 465
Registrations, wax interocclusal, determination of accuracy of. Part II (Millstein, Clark, and Kronman), 40
Relation, centric, exercise therapy for accurate recording of (Nasr and Griffiths), 5
locating, with leaf gauge (Long), 608
Removable maxillary partial denture, dentists' designs of, variability in (Frantz), 172
partial dentures, clasp repair for (Smith), 231
extension-base, clasp design for (Krol), 408
Repair, clasp, for removable partial dentures (Smith), 231
of fractured porcelain denture teeth (Jochen), 228
Report of Committee on Scientific Investigation of American Academy of Restorative Dentistry (Smith), 647
Resin models, life-like acrylic, fabrication of (Shearer), 118
shells, vacuformed clear (Jones), 460
temporary crowns, acrylic, direct technique for fabricating, using Omnivac (Sotera), 577
tooth implant, acrylic. III. Continuing report (Ashman), 549
Resorption, bone, and prosthodontics (Fenton), 477
gross alveolar, management of (Hobkirk), 397
Restoration(s), amalgam, marginal failure of, in primary teeth related to material selection and proximal retention (Mathewson, Retzlaff, and Porter), 288
artificial complete crown, facial and lingual contours of, and their effects on periodontium (Yuodelis, Weaver, and Sapkos), 61
complete-coverage, and gingival sulcus (Berman), 301
conservative amalgam (Almquist, Cowan, and Lambert), 524
fixed, combined chew-in–one-piece casting technique for (Edalat and Khadjavi), 632
porcelain-fused-to-metal, preparation design and margin distortion in (Shillingburg, Hobo, and Fisher), 276
pure gold, physical properties vs. clinical performance of (Richter and Mahler), 434
zinc-containing and zinc-free amalgam, comparison of (Watson, Phillips, Swartz, and Gilmore), 536
Restorative Dentistry, American Academy of, report of Committee on Scientific Investigation of (Smith), 647
materials, response of human gingiva to (Trivedi and Talim), 73

Retention of complete denture bases having different types of posterior palatal seal, comparison of (Avant), 484
denture, study of some factors associated with (Avant), 383
proximal, and material selection, marginal failure of amalgam restorations in primary teeth related to (Mathewson, Retzlaff, and Porter), 288
Retentive pins, mechanics of load transfer by (Caputo, Standlee, and Collard), 442
Retraction, copper-band gingival, to produce void-free crown and bridge impressions (Darby and Darby), 513
Retruded stroke, effect of jaw guidance on, as recorded in sagittal plane (Ziebert and Knap), 262
Roughness, surface, of castings made by various casting techniques (Fusayama and Yamane), 529

S

Sagittal plane, effect of jaw guidance on retruded stroke as recorded in (Ziebert and Knap), 262
graphic analysis of hinge motion on (Knap, Espinoza, and Ziebert), 390
Scanning electron microscopy, use of, for evaluating diamond points (Janota), 88
Scientific Investigation, Committee on, of American Academy of Restorative Dentistry, report of (Smith), 647
Seal, maxillary complete denture posterior palatal: variations in size, shape, and location (Winland and Young), 256
posterior palatal, different types of, comparison of retention of complete denture bases having (Avant), 484
Self-threading pin, new (Mattos), 81
Semiadjustable articulators, use of lateral interocclusal records in (Azarmehr and Yarmand), 330
vs. adjustable articulators, Part I. Significance of articulator capabilities (Bellanti), 269
Service(s), immediate denture (LaVere and Krol), 10
Service(s)—Cont'd
joint consultation, by periodontist and and prosthodontist (Nassif and Blumenfeld), 55
Shape, size, and location, variations in: maxillary complete denture posterior palatal seal (Winland and Young), 256
Shells, vacuformed clear resin (Jones), 460
Silicophosphate cement, zinc: influence of composition on acid solubility and fluoride content of enamel (Phillips et al.), 628
Silver electroplater, kit construction of (Krug), 640
Size, shape, and location, variations in: maxillary complete denture posterior palatal seal (Winland and Young), 256
Skull distortion, effect of, on occlusal equilibration (Silverman), 425
Sore mouth, denture, key factor in: nature of denture base (Miner), 250
Speech considerations, clinical, in prosthodontics: perspectives of prosthodontist and speech pathologist (Chierici and Lawson), 29
jaw movements in young adult men during (Gillings), 567
patterns of edentulous patients and morphology of palate in relation to phonetics (Tanaka), 16
Splinting, molar, matrix design for (Light and Rakow), 285
nonparallel pin, for mobile teeth (Tautin and Miller), 67
Strength, bond, of two types of cement to gold casting alloy (Ady and Fairhurst), 217
Stresses, dynamic, encountered in impression removal (Collard, Caputo, Standlee, and Trabert), 498
Stroke, retruded, effect of jaw guidance on, as recorded in sagittal plane (Ziebert and Knap), 262
Sulcus, gingival, complete-coverage restoration and (Berman), 301
Surface roughness of castings made by various casting techniques (Fusayama and Yamane), 529
Syndrome, myofascial pain-dysfunction: attitudes and other personality characteristics related to tolerance for pain (Lupton and Johnson), 323

System, physiologic: ocular prosthesis (Barlett and Moore), 450

T

Tapered plastic pins, standardized, use of, in post and core fabrication (Weine, Kahn, Wax, and Taylor), 542
Technique(s) for bite plane construction (Shulman), 334
combined chew-in–one-piece casting, for fixed restorations (Edalat and Khadjavi), 632
direct, for fabricating acrylic resin temporary crowns using Omnivac (Sotera), 577
marble: method for treating "hopeless gagger" for complete dentures (Singer), 146
to record jaw relations for distally edentulous dental arches (Wagner), 405
for transfer of coping and jaw relationships (Smukler, Lemmer, and Hagemann), 183
various casting, surface roughness of castings made by (Fusayama and Yamane), 529
Teeth, fractured porcelain denture, repair of (Jochen), 228
mobile, nonparallel pin splinting for (Tautin and Miller), 67
primary, marginal failure of amalgam restorations in, related to material selection and proximal retention (Mathewson, Retzlaff, and Porter), 288
Telescope dentures (Perel), 151
Temporary crowns, acrylic resin, direct technique for fabricating, using Omnivac (Sotera), 577
Temporomandibular joint pain-dysfunction problems can be solved (Dawson), 100
radiographs, oriented, headholder for (Buhner), 113
Tester, electric pulp, tissue response to (McDaniel, Rowe, and Charbeneau), 84
Therapy, exercise, for accurate recording of centric relation (Nasr and Griffiths), 5
Through eyes of editor (Boucher), 1, 129, 241, 355, 473, 591
Tissue response to electric pulp tester (McDaniel, Rowe, and Charbeneau), 84
Tooth contacts, posterior, and pin opening: processing changes in complete dentures (Wesley et al.), 46
implant, acrylic resin. III. Continuing report (Ashman), 549
position, cephalometric study of, as related to facial structure in profiles of human beings: comparison of Japanese (Oriental) and American (Caucasian) adults (Reitz et al.), 157
Training devices for group instruction in occlusal equilibration (Bartlett and Elliott), 517
Transfer of coping and jaw relationships, technique for (Smukler, Lemmer, and Hagemann), 183
instrument, face-bow, pantograph as (Moberg, Yoder, and Thayer), 139

V

Vacuformed clear resin shells (Jones), 460
Vacuum–air pressure investing (Chandler et al.), 225
Visual perception, principles of, and their clinical application to denture esthetics (Lombardi), 358
Void-free crown and bridge impressions, copper-band gingival retraction to produce (Darby and Darby), 513

W

Wax interocclusal registrations, determination of accuracy of. Part II (Millstein, Clark, and Kronman), 40

Z

Zinc-containing and zinc-free amalgam restorations, comparison of (Watson, Phillips, Swartz, and Gilmore), 536
silicophosphate cement: influence of composition on acid solubility and fluoride content of enamel (Phillips et al.), 628

Subject index

A

Abutment retainer, loose terminal (Mallin), 91
teeth, methods of handling, in Class I partial dentures (Nally), 561
tooth mobility, effects of removable partial dentures on: clinical study (Goodkind), 139
Academy of Maxillofacial Prosthetics, American, 1971 and members of (Sooudi), 820
Acrylic resin, simplified waxing of veneer crowns to receive (Fellman), 461
veneer crowns, additional retention for (Buckner), 459
Adaptation, accurate, of porcelain pontic to edentulous ridge section of cast (Mason), 99
of different mandibular denture bases, comparison of (McGivney), 126
Adjustment, occlusal (Long), 706
Adults, complicated crown fractures in (Pietrokovski and Lantzman), 801
Agents, common, effect of, on intermediary temporary soft reline materials (Klingler and Lord), 749
pharmacology of, used to treat temporomandibular joint (TMJ) problems (Gangarosa), 80
Aids in cleft palate rehabilitation, tissue bar and Ceka anchor as (LaVelle and Zach), 321
Alloys, nonprecious, evaluation of, for use with porcelain veneers. Part I. Physical properties (Moffa et al.), 424
Part II. Industrial safety and biocompatibility (Moffa et al.), 432
Alveolar process, complete denture construction on, containing endodontically treated roots (Maurer), 756
Amalgam(s) and composite resin splint for posterior teeth (Liatukas), 173
vs., one-year and two-year clinical evaluation of (Osborne et al.), 795
dental, and retentive pins, different, qualitative study of interface between (Khowassah and Denehy), 289
restorations, Class II, fracture strength of, condensed over protective bases (Vieira and Mondelli), 166
American Academy of Maxillofacial Prosthetics, 1971 and members of (Sooudi), 820
Board of Prosthodontics (Laney), 926
Anchor, Ceka, tissue bar and, as aids in cleft palate rehabilitation (LaVelle and Zach), 321
Angles of approach to occlusal plane, masticatory movements of jaw measured at (Gibbs et al.), 283
Anterior teeth, lower, attachment of splint to enamel of (Rochette), 418
malposed, treatment of, in adults (Ross), 43
tooth restoration, esthetic factors in (Culpepper), 576
Arms, wrought-wire retentive clasp, construction techniques for, as related to clasp flexibility (Brudvik and Wormley), 769
Articulators, classification of (Thomas), 11
Atrophied mandible, terminal dentistry and (Lew), 609
Attachments, precision: uses and abuses (Preiskel), 491
Authoritarianism, dentist, effects of, on patient evaluation of dentures (Hirsch et al.), 745

B

Bacteria, growth of, and effect on pulp: cavity treatment with microbicidal fluoride solution (Brännström and Nyborg), 303
Bar, tissue, and Ceka anchor as aids in cleft palate rehabilitation (LaVelle and Zach), 321
Basal seat, maxillary, measurement of area of, for dentures (Luthra), 25
Base(s), different mandibular denture, comparison of adaptation of (McGivney), 126
permanent-, denture technique, using fluid resin (Browning), 468
protective, fracture strength of Class II amalgam restorations condensed over (Vieira and Mondelli), 166
removable partial denture, extension-, selection of major connector for (LaVere and Krol), 102
Biocompatibility, industrial safety and, Part II. Evaluation of nonprecious alloys for use with porcelain veneers (Moffa et al.), 432
Biologic approach to complete dentures (Joglekar), 700

July, pp. 1-122; August, pp. 123-236; September, pp. 237-362; October (Part 1), pp. 363-484; October (Part 2), pp. 485-730; November, pp. 731-856; December, pp. 857-968.

Blade implants, subperiosteal and endosteal (Gershkoff), 611
Blade-vent, endosteal (Linkow), 611
Blocks, plastic, condylar movement patterns engraved in (Lundeen and Wirth), 866
Board of Prosthodontics, American (Laney), 926
Book review(s), 112, 229, 354, 472
Border molding, impression, with cold-curing resin (Smith), 914
Bounded space problems, case analysis in solution of (Friedman), 668
Bridges, saddle-extension: therapeutic alternatives in modern prosthodontics (Wedendal), 560

C

Calcified stylomandibular and stylohyoid ligaments, radiographic interpretation of (Goldstein and Scopp), 330
Cancer of floor of mouth, treatment of, fabrication of prosthesis for guiding and fixing radioactive sources in (Fine et al.), 349
Caries, interproximal, proximal contacts in posterior teeth and factors influencing (Gohil et al.), 295
Cast, edentulous ridge section of, accurate adaptation of porcelain pontic to (Mason), 99
  tilt of, reproduction of, on surveyor (Kaloyannides), 465
  trimming, criteria and procedures for (Miller and Burch), 843
Castings, metal, radiographic testing of, for use in dental implants (Smith), 335
  tight, technique for easy removal of, from Dentoform teeth (Zakaria), 347
Causes and prevention of fixed prosthodontic failure (Brown), 617
Cavity design, heat treatment, and cementation, influence of, on MOD gold inlays. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
  treatment with microbicidal fluoride solution: growth of bacteria and effect on pulp (Brännström and Nyborg), 303
Ceka anchor, tissue bar and, as aids in cleft palate rehabilitation (LaVelle and Zach), 321
Cementation, cavity design, and heat treatment, influence of, on MOD gold inlays. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
Cements, new dental, and fixed prosthodontics (Jendresen), 684
Centric position: replacement and character (Celenza), 591
  relation and centric occlusion in dentulous subjects, comparison of condylar position in (Hoffman et al.), 582
  instrument for locating (Long), 50
  recording techniques: comparative investigation (Kantor et al.), 604
Centric relation—Cont'd
  registrations, influence of neuromuscular conditioning on (Calagna et al.), 598
  temporomandibular joint function and its effect on (Weinberg), 176, 673
Cervical esophagus prosthesis (Moore), 442
Character, replacement and: centric position (Celenza), 591
Clasp arms, wrought-wire retentive, construction techniques for, as related to clasp flexibility (Brudvik and Wormley), 769
Class I partial dentures, methods of handling abutment teeth in (Nally), 561
  II amalgam restorations, fracture strength of, condensed over protective bases (Vieira and Mondelli), 166
  restorations, observations on composite resin for: three-year report (Phillips et al.), 891
Classification utilized in treatment of exceptional or terminal dentitions (Fiset), 526
Cleft palate rehabilitation, aids in, tissue bar and Ceka anchor as (LaVelle and Zach), 321
Clinical evaluation, one-year and two-year, of a composite resin vs. amalgam (Osborne et al.), 795
  and histologic assessment of subperiosteal implants (Mack), 516
Closing movements, opening and, mandibular flexure in (Goodkind and Heringlake), 134
Cold-curing resin, impression border molding with (Smith), 914
Complete denture(s), biologic approach to (Joglekar), 700
  construction on alveolar process containing endodontically treated roots (Maurer), 756
  in United Kingdom (Murphy), 566
  function of steep cusps in mastication with (Mehringer), 367
  immediate interim tooth-supported (Morrow et al.), 695
  occlusal concepts in (Beck), 515
  problems, prevention of, by use of "overdentures" (Dodge), 403
  prosthesis: clinical review of accepted procedures (Klein), 622
  prosthodontics, successful (Heartwell), 612
  relining of (Boucher), 521
lower impression, minimizing problems in making (Ellinger), 553
restorative dentistry (Miller), 675
Composite impression procedures (Walter), 385
resin for Class II restorations, observations on: three-year report (Phillips et al.), 891
  foundations, reinforced, for endodontically treated teeth (Steele), 816
  splint, amalgam and, for posterior teeth (Liatukas), 173
  vs. amalgam, one-year and two-year clinical evaluation of (Osborne et al.), 795

Computerizing denture construction (Pound et al.), 688
Conditioning, neuromuscular, influence of, on centric relation registrations (Calagna et al.), 598
Condylar movement patterns engraved in plastic blocks (Lundeen and Wirth), 866
position, comparison of, in centric relation and in centric occlusion in dentulous subjects (Hoffman et al.), 582
Congenital oral facial defects, function of maxillofacial prosthetics for (Rosen), 632
Congress, First International Prosthodontic (Farrell), 106
highlights of, 723
papers also presented at, 721
Connector(s), major, for mandibular removable partial dentures: design and function (Henderson), 532
selection of, for extension-base removable partial denture (LaVere and Krol), 102
Contacts, proximal, in posterior teeth and factors influencing interproximal caries (Gohil et al.), 295
Contours, crown, of wax pattern, evaluating (Burch and Miller), 454
Contraction of dental materials, expansion and (Harris), 666
Coping design, tooth preparation and: porcelain fused to metal (Hobo and Shillingburg), 28
special transfer, for better-contoured crowns (Weissman), 274
Core patterns, prefabricated post and (Hannah), 37
restorations, dowel and, principles of preparing endodontically treated teeth for (Stern and Hirshfeld), 162
Cosmetic restoration, functional and, of massive orofacial defect (Lepley and Strauss), 635
Coverage, temporary, polycarbonate resin and its use in matrix technique for (King et al.), 789
Crown(s), acrylic veneer, additional retention for (Buckner), 459
better-contoured, special transfer coping for (Weissman), 274
contours of wax pattern, evaluating (Burch and Miller), 454
fractures, complicated, in adults (Pietrokovski and Lantzman), 801
margin placement, relationship of, to gingival inflammation (Richter and Ueno), 156
posts, screw-threaded, investigation of resistance to stress of (Messing and Wills), 278
surveyed (Chandler et al.), 775
temporary, and fixed partial dentures, fabrication of (Fritts and Thayer), 151
veneer, simplified waxing of, to receive acrylic resin (Fellman), 461
Cusps, steep, function of, in mastication with complete dentures (Mehringer), 367
Cyanoacrylates in pin retention (Rakow and Light), 311
Cybernetic occlusion (Buxó), 655

D

Defect(s), congenital oral facial, function of maxillofacial prosthetics for (Rosen), 632
massive orofacial, functional and cosmetic restoration of (Lepley and Strauss), 635
Deformation, proximal permanent, under occlusal stress. Influence of cavity design, heat treatment, and cementation on MOD gold inlays (Mondelli and Vieira), 882
Dental amalgams and retentive pins, different, interface between, qualitative study of (Khowassah and Denehy), 289
cements, new, and fixed prosthodontics (Jendresen), 684
implants, radiographic testing of metal castings for use in (Smith), 335
literature, meaning of statistics in (Wagner), 446
materials, expansion and contraction of (Harris), 666
pulp, stress transfer to, by retentive pins (Trabert et al.), 808
Dentist authoritarianism, effects of, on patient evaluation of dentures (Hirsch et al.), 745
role of, in radiotherapy (Santiago), 196
Dentistry, complete restorative (Miller), 675
implant, periodontal considerations in (James), 202
its relation to: VA health care delivery (Johnson), 487
restorative, periodontal-prosthetic patterns in (Pameijer), 663
terminal, and atrophied mandible (Lew), 609
Dentition(s), exceptional or terminal, classification utilized in treatment of (Fiset), 526
natural, equilibration of (Schuyler), 506
Dentoform teeth, technique for easy removal of tight castings from (Zakaria), 347
Dentulous subjects, comparison of condylar position in centric relation and in centric occlusion in (Hoffman et al.), 582
Denture(s) bases, different mandibular, comparison of adaptation of (McGivney), 126
Class I partial, methods of handling abutment teeth in (Nally), 561
complete, biologic approach to (Joglekar), 700
function of steep cusps in mastication with (Mehringer), 367
occlusal concepts in (Beck), 515
relining of (Boucher), 521

Denture(s)—Cont'd
construction, complete, on alveolar process containing endodontically treated roots (Maurer), 756
in United Kingdom (Murphy), 566
computerizing (Pound et al.), 688
gold occlusal surfaces and organic occlusion in (Elkins), 94
removable partial, variations in registering interarch transfers in (Hall), 548
effects of dentist authoritarianism on patient evaluation of (Hirsch et al.), 745
extension-base removable partial, selection of major connector for (LaVere and Krol), 102
fabrication, practical approach to (Loiselle), 490
fixed partial, fabrication of temporary crowns and (Fritts and Thayer), 151
immediate interim tooth-supported complete (Morrow et al.), 695
mandibular removable partial, major connectors for: design and function (Henderson), 532
measurement of area of maxillary basal seat for (Luthra), 25
porcelain-fused-to-metal fixed partial, soldering (Chandler and Brudvik), 918
problems, complete, prevention of, by use of "overdentures" (Dodge), 403
prosthesis, complete: clinical review of accepted procedures (Klein), 622
partial, precision techniques in (Przetak), 520
prosthodontics, successful complete (Heartwell), 612
removable partial, effects of, on abutment tooth mobility: clinical study (Goodkind), 139
partial, intracoronal semiprecision retainer for—Thompson dowel (Koper), 759
resin processing, fluid, in rigid mold (Koblitz et al.), 339
single, occlusion and (Rudd and Morrow), 4
stomatitis, microbiologic studies on (Van Reenen), 493
success, predicting (Swoope), 860
technique, permanent-base, using fluid resin (Browning), 468
teeth, porcelain, methods for polishing, evaluation of (Morrow et al.), 222
temporary and treatment partial, fabrication of (Frank), 215
tooth-supported (Brewer), 703
transitional immediate, construction of (Javid and Porter), 210
Design, cavity, heat treatment, and cementation, influence of, on MOD gold inlays. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
coping, tooth preparation and: porcelain fused to metal (Hobo and Shillingburg), 28
Design—Cont'd
and function: major connectors for mandibular removable partial dentures (Henderson), 532
Diagnosis and treatment planning for fixed prosthodontics (Brehm), 876
Directory, 118, 230, 356, 479, 850, 944
Dowel and core restorations, principles of preparing endodontically treated teeth for (Stern and Hirshfeld), 162
Thompson—intracoronal semiprecision retainer for removable partial dentures (Koper), 759
Dysfunction, temporomandibular joint, patients with, personality correlates of (Gross and Vacchiano), 326
Dyskinesia, orofacial: effective prosthetic therapy (Sutcher et al.), 252

E

Edentulous patients, prosthodontic approach to (Roberts), 493
ridge section of cast, accurate adaptation of porcelain pontic to (Mason), 99
Electrochemical milling, effect of, on margins of MOD inlays (Patel), 66
Electromyographic evaluation of Myo-Monitor (Bessette and Quinlivan), 19
Emotional aspects of prosthodontic patients (Pilling), 514
Enamel of lower anterior teeth, attachment of splint to (Rochette), 418
Endodontically treated roots, complete denture construction on alveolar process containing (Maurer), 756
teeth, principles of preparing, for dowel and core restorations (Stern and Hirshfeld), 162
reinforced composite resin foundations for (Steele), 816
Endosteal blade implants, subperiosteal and (Gershkoff), 611
blade-vent (Linkow), 611
oral implants, present status of (Cranin et al.), 609
Epithelial keratinization, palatal: prosthetic applications (Smitt), 489
Equilibration of natural dentition (Schuyler), 506
Esophagus prosthesis, cervical (Moore), 442
Esthetic factors in anterior tooth restoration (Culpepper), 576
Expansion and contraction of dental materials (Harris), 666
Extension bridges, saddle-: therapeutic alternatives in modern prosthodontics (Wedendal), 560
Extension-base removable partial denture, selection of major connector for (LaVere and Krol), 102
Extrusion, induced, evaluation of, in repair of loose tooth (Klingsberg), 74

F

Facial defects, congenital oral, function of maxillofacial prosthetics for (Rosen), 632

Film, single-concept, prosthodontics and (Travaglini), 640
Fixed prosthodontics, new dental cements and (Jendresen), 684
Flexibility, clasp, construction techniques for wrought-wire retentive clasp arms as related to (Brudvik and Wormley), 769
Flexure, mandibular, in opening and closing movements (Goodkind and Heringlake), 134
Fluoride solution, microbicidal, cavity treatment with: growth of bacteria and effect on pulp (Brännström and Nyborg), 303
Forensic odontology (Stimson), 922
Foundations, reinforced composite resin, for endodontically treated teeth (Steele), 816
Fracture(s), complicated crown, in adults (Pietrokovski and Lantzman), 801
strength of Class II amalgam restorations condensed over protective bases (Vieira and Mondelli), 166
Function, design and: major connectors for mandibular removable partial dentures (Henderson), 532
of maxillofacial prosthetics for congenital oral facial defects (Rosen), 632
steep cusps in mastication with complete dentures (Mehringer), 367
temporomandibular joint, and its effect on centric relation (Weinberg), 176, 673
Functional and cosmetic restoration of massive orofacial defect (Lepley and Strauss), 635
positions of occlusion (Jankelson), 559

G

Gingival inflammation, relationship of crown margin placement to (Richter and Ueno), 156
Gnathology, contributions of, to prosthodontics (Stuart), 607
Gold inlays, MOD, influence of cavity design, heat treatment, and cementation on. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
occlusal surfaces and organic occlusion in denture construction (Elkins), 94
restorations, parallel pins in (Göransson), 492

H

Health care delivery, VA: its relation to dentistry (Johnson), 487
Heat treatment, cavity design, and cementation, influence of, on MOD gold inlays. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
Highlights of Congress, 723
Histologic assessment, clinical and, of subperiosteal implants (Mack), 516
Human factors in prosthodontic treatment (Koper), 678

I

Iatrogenic factors in periodontal prostheses (Przetak), 606
Immediate dentures, transitional, construction of (Javid and Porter), 210
Implant(s), dental, radiographic testing of metal castings for use in (Smith), 335
dentistry, periodontal considerations in (James), 202
endosteal oral, present status of (Cranin et al.), 609
nonsurgical prostheses placed over (Weber), 610
subperiosteal, clinical and histologic assessment of (Mack), 516
and endosteal blade (Gershkoff), 611
Impression border molding with cold-curing resin (Smith), 914
complete lower, minimizing problems in making (Ellinger), 553
procedures, composite (Walter), 385
Incisal guidance, divided (Christensen), 147
Indiana University School of Dentistry and Medical Center, maxillofacial prosthetics program at (Chalian), 636
Industrial safety and biocompatibility, Part II. Evaluation of nonprecious alloys for use with porcelain veneers (Moffa et al.), 432
Inflammation, gingival, relationship of crown margin placement to (Richter and Ueno), 156
types of, caused by oral prostheses (Miller), 380
Inlays, MOD gold, influence of cavity design, heat treatment, and cementation on. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
margins of, effect of electrochemical milling on (Patel), 66
Instrument for locating centric relation (Long), 50
selection and mandibular movement recording procedures (Mensor), 659
Interarch transfers, variations in registering, in removable partial denture construction (Hall), 548
Interest, conflict of (Cranin), 735
Interface between different dental amalgams and retentive pins, qualitative study of (Khowassah and Denehy), 289
Interferences, occlusal, tooth mobility changes in response to (Noble and Martin), 412
Interim tooth-supported complete dentures, immediate (Morrow et al.), 695
International Prosthodontic Congress, First (Farrell), 106
Interproximal caries, proximal contacts in posterior teeth and factors influencing (Gohil et al.), 295
Intracoronal semiprecision retainer for removable partial dentures—Thompson dowel (Koper), 759
Introductory remarks (Saporito), 487

J

Jaw, masticatory movements of, measured at angles of approach to occlusal plane (Gibbs et al.), 283
Joint dysfunction, temporomandibular, patients with, personality correlates of (Gross and Vacchiano), 326
function, temporomandibular, and its effect on centric relation (Weinberg), 176, 673
physiology, temporomandibular, related to occlusal reconstruction (Martignoni), 588
problems, temporomandibular, pharmacology of agents used to treat (Gangarosa), 80
syndrome, temporomandibular: influence of first symptom on initial therapeutic response (Carraro et al.), 87
temporomandibular, reflex functions of (Storey), 830

K

Keratinization, palatal epithelial: prosthetic applications (Smitt), 489

L

Ligaments, calcified stylomandibular and stylohyoid, radiographic interpretation of (Goldstein and Scopp), 330
Light polymerized restorative system, ultraviolet: clinical report (Heyde), 693
Literature, dental, meaning of statistics in (Wagner), 446

M

Malignancy, recurrent nasopharyngeal, retreatment of, using radium mold (Deutsch et al.), 315
Mandible, atrophied, terminal dentistry and (Lew), 609
Mandibular denture bases, different, comparison of adaptation of (McGivney), 126
first molars, comparative evaluation of masticatory efficiency of fixed and removable restorations replacing (Nagasawa and Tsuru), 263
flexure in opening and closing movements (Goodkind and Heringlake), 134
movement(s), neuromuscular control of (Perry), 714
recording procedures, instrument selection and (Mensor), 659
removable partial dentures, major connectors for: design and function (Henderson), 532
Margin(s) of MOD inlays, effect of electrochemical milling on (Patel), 66
placement, crown, relationship of, to gingival inflammation (Richter and Ueno), 156
Mastication with complete dentures, function of steep cusps in (Mehringer), 367
Masticatory efficiency of fixed and removable restorations, comparative evaluation of, replacing mandibular first molars (Nagasawa and Tsuru), 263
Masticatory—Cont'd
movements of jaw measured at angles of approach to occlusal plane (Gibbs et al.), 283
Materials, dental, expansion and contraction of (Harris), 666
intermediary temporary soft reline, effect of common agents on (Klingler and Lord), 749
Matrix technique for temporary coverage, polycarbonate resin and its use in (King et al.), 789
Maxillary basal seat, measurement of area of, for dentures (Luthra), 25
Maxillectomy, prosthetic reconstruction following (Hildestad), 637
Maxillofacial Prosthetics, American Academy of, 1971 and members of (Sooudi), 820
controversial subspecialty (Matalon), 628
function of, for congenital oral facial defects (Rosen), 632
phase of prosthodontics (Laney), 630
program at Indiana University School of Dentistry and Medical Center (Chalian), 636
prosthodontist, what, should know about tumors (Heartwell), 825
Maxillomandibular relation, stable, importance of (Dyer), 241
Measurement of area of maxillary basal seat for dentures (Luthra), 25
Members of American Academy of Maxillofacial Prosthetics, 1971 and (Sooudi), 820
Metal castings, radiographic testing of, for use in dental implants (Smith), 335
porcelain-fused-to-, fixed partial dentures, soldering (Chandler and Brudvik), 918
tooth preparation and coping design (Hobo and Shillingburg), 28
Microbicidal fluoride solution, cavity treatment with: growth of bacteria and effect on pulp (Brännström and Nyborg), 303
Microbiologic studies on denture stomatitis (Van Reenen), 493
Milling, electrochemical, effect of, on margins of MOD inlays (Patel), 66
Mobility, abutment tooth, effects of removable partial dentures on: clinical study (Goodkind), 139
changes, tooth, in response to occlusal interferences (Noble and Martin), 412
MOD gold inlays, influence of cavity design, heat treatment, and cementation on. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
inlays, margins of, effect of electrochemical milling on (Patel), 66
Molars, mandibular first, comparative evaluation of masticatory efficiency of fixed and removable restorations replacing (Nagasawa and Tsuru), 263

Mold, radium, retreatment of recurrent nasopharyngeal malignancy using (Deutsch et al.), 315
rigid, fluid denture resin processing in (Koblitz et al.), 339
Molding, impression border, with cold-curing resin (Smith), 914
Mouth, cancer of floor of, fabrication of prosthesis for guiding and fixing radioactive sources in treatment of (Fine et al.), 349
rehabilitation, full-, remounting procedure for completion of (Lucia), 679
Movement(s) of jaw, masticatory, measured at angles of approach to occlusal plane (Gibbs et al.), 283
mandibular, neuromuscular control of (Perry), 714
opening and closing, mandibular flexure in (Goodkind and Heringlake), 134
patterns, condylar, engraved in plastic blocks (Lundeen and Wirth), 866
recording procedures, mandibular, instrument selection and (Mensor), 659
Myo-Monitor, electromyographic evaluation of (Bessette and Quinlivan), 19

N

Nasopharyngeal malignancy, recurrent, retreatment of, using radium mold (Deutsch et al.), 315
Neuromuscular conditioning, influence of, on centric relation registrations (Calagna et al.), 598
control of mandibular movements (Perry), 714
News and notes, 121, 233, 360, 483, 854, 965
Nonprecious alloys, evaluation of, for use with porcelain veneers. Part I. Physical properties (Moffa et al.), 424
Part II. Industrial safety and biocompatibility (Moffa et al.), 432

O

Occlusal adjustment (Long), 706
concepts in complete dentures (Beck), 515
interferences, tooth mobility changes in response to (Noble and Martin), 412
plane, angles of approach to, masticatory movements of jaw measured at (Gibbs et al.), 283
reconstruction, temporomandibular joint physiology related to (Martignoni), 588
stress, proximal permanent deformation under. Influence of cavity design, heat treatment, and cementation on MOD gold inlays (Mondelli and Vieira), 882
surfaces, artificial (von Krammer K.), 391
gold, and organic occlusion in denture construction (Elkins), 94
modified artificial (von Krammer K.), 394
Occlusion, centric, centric relation and, in dentulous subjects, comparison of condylar position in (Hoffman et al.), 582
Occlusion—Cont'd
cybernetic (Buxó), 655
essential question of (Sharry), 509
functional positions of (Jankelson), 559
organic, gold occlusal surfaces and, in denture construction (Elkins), 94
physiologic, systematic approach to restorative procedures in (Blagbrough), 573
physiologically generated (Mehringer), 373
point of significance in planning restorative procedures (Beyron), 641
and single denture (Rudd and Morrow), 4
sources of confusion in study of (Nairn), 488
Odontology, forensic (Stimson), 922
Opening and closing movements, mandibular flexure in (Goodkind and Heringlake), 134
Oral facial defects, congenital, function of maxillofacial prosthetics for (Rosen), 632
implants, endosteal, present status of (Cranin et al.), 609
preventive techniques, modern (McNeill), 567
prostheses, types of inflammation caused by (Miller), 380
re-rehabilitation, problems in (Pruden), 558
Organic occlusion, gold occlusal surfaces and, in denture construction (Elkins), 94
Orofacial defect, massive, functional and cosmetic restoration of (Lepley and Strauss), 635
dyskinesia: effective prosthetic therapy (Sutcher et al.), 252
Orthodontics for restorative procedures (Seide), 56
"Overdentures," prevention of complete denture problems by use of (Dodge), 403

P

Palatal epithelial keratinization: prosthetic applications (Smitt), 489
Palate rehabilitation, cleft, tissue bar and Ceka anchor as aids in (LaVelle and Zach), 321
Papers also presented at Congress, 721
Partial denture(s), Class I, methods of handling abutment teeth in (Nally), 561
construction, removable, variations in registering interarch transfers in (Hall), 548
extension-base removable, selection of major connector for (LaVere and Krol), 102
Partial dentures, fixed, fabrication of temporary crowns and (Fritts and Thayer), 151
mandibular removable, major connectors for: design and function (Henderson), 532
porcelain-fused-to-metal fixed, soldering (Chandler and Brudvik), 918
prosthesis, precision techniques in (Przetak), 520

Partial dentures—Cont'd
removable, effects of, on abutment tooth mobility: clinical study (Goodkind), 139
intracoronal semiprecision retained for —Thompson dowel (Koper), 759
temporary and treatment, fabrication of (Frank), 215
Pattern(s), condylar movement, engraved in plastic blocks (Lundeen and Wirth), 866
periodontal-prosthetic, in restorative dentistry (Pameijer), 663
prefabricated post and core (Hannah), 37
wax, evaluating crown contours of (Burch and Miller), 454
Periodontal considerations in implant dentistry (James), 202
for prosthetic patients (Krajicek), 15
prostheses, evaluation of (Echeverri), 652
iatrogenic factors in (Przetak), 606
prosthetic patterns in restorative dentistry (Pameijer), 663
Periodontics, prosthodontics and, comprehensive treatment rationale combining (Calagna), 781
Personality correlates of patients with temporomandibular joint dysfunction (Gross and Vacchiano), 326
Pharmacology of agents used to treat temporomandibular joint (TMJ) problems (Gangarosa), 80
Physical properties, Part I. Evaluation of nonprecious alloys for use with porcelain veneers (Moffa et al.), 424
Physiologic occlusion, systematic approach to restorative procedures in (Blagbrough), 573
Physiologically generated occlusion (Mehringer), 373
Physiology, temporomandibular joint, related to occlusal reconstruction (Martignoni), 588
Pin(s), parallel, in gold restorations (Göransson), 492
retention, cyanoacrylates in (Rakow and Light), 311
retentive, different dental amalgams and, interface between, qualitative study of (Khowassah and Denehy), 289
stress transfer to dental pulp by (Trabert et al.), 808
Plane, occlusal, angles of approach to, masticatory movements of jaw measured at (Gibbs et al.), 283
Plastic blocks, condylar movement patterns engraved in (Lundeen and Wirth), 866
template, mutliple uses of, in fixed prosthodontics (Krug), 838
Plates, personalized restorations vs. (Fisher), 513
Polishing porcelain denture teeth, methods for, evaluation of (Morrow et al.), 222
Polycarbonate resin and its use in matrix technique for temporary coverage (King et al.), 789
Polymerized restorative system, ultraviolet light: clinical report (Heyde), 693
Pontic, porcelain, accurate adaptation of, to edentulous ridge section of cast (Mason), 99
Porcelain denture teeth, methods for polishing, evaluation of (Morrow et al.), 222
fused-to-metal fixed partial dentures, soldering (Chandler and Brudvik), 918
tooth preparation and coping design (Hobo and Shillingburg), 28
pontic, accurate adaptation of, to edentulous ridge section of cast (Mason), 99
veneers, evaluation of nonprecious alloys for use with. Part I. Physical properties (Moffa et al.), 424
Part II. Industrial safety and biocompatibility (Moffa et al.), 432
Position(s), centric: replacement and character (Celenza), 591
condylar, comparison of, in centric relation and in centric occlusion in dentulous subjects (Hoffman et al.), 582
of occlusion, functional (Jankelson), 559
Post(s) and core patterns, prefabricated (Hannah), 37
screw-threaded crown, investigation of resistance to stress of (Messing and Wills), 278
Posterior teeth, amalgam and composite resin splint for (Liatukas), 173
proximal contacts in, and factors influencing interproximal caries (Gohil et al.), 295
Postgraduate and refresher courses, 115, 473
Preface (Perry), 485
Prevention, causes and, of fixed prosthodontic failure (Brown), 617
Preventive techniques, modern oral (McNeill), 567
Procedure(s), accepted, clinical review of: complete denture prosthesis (Klein), 622
composite impression (Walter), 385
mandibular movement recording, instrument selection and (Mensor), 659
remounting, for completion of full-mouth rehabilitation (Lucia), 679
restorative, orthodontics for (Seide), 56
point of significance in planning: occlusion (Beyron), 641
systematic approach to, in physiologic occlusion (Blagbrough), 573
Process, alveolar, complete denture construction on, containing endodontically treated roots (Maurer), 756
Processing, fluid denture resin, in rigid mold (Koblitz et al.), 339
Program, maxillofacial prosthetics, at Indiana University School of Dentistry and Medical Center (Chalian), 636
Properties, physical, Part I. Evaluation of nonprecious alloys for use with porcelain veneers (Moffa et al.), 424
Prostheses, nonsurgical, placed over implants (Weber), 610

Prostheses—Cont'd
oral, types of inflammation caused by (Miller), 380
periodontal, evaluation of (Echeverri), 652
iatrogenic factors in (Przetak), 606
Prosthesis, cervical esophagus (Moore), 442
complete denture: clinical review of accepted procedures (Klein), 622
fabrication of, for guiding and fixing radioactive sources in treatment of cancer of floor of mouth (Fine et al.), 349
partial denture, precision techniques in (Przetak), 520
Prosthetic(s), American Academy of Maxillofacial, 1971 and members of (Sooudi), 820
applications: palatal epithelial keratinization (Smitt), 489
maxillofacial—controversial subspecialty (Matalon), 628
function of, for congenital oral facial defects (Rosen), 632
phase of prosthodontics (Laney), 630
patients, periodontal considerations for (Krajicek), 15
patterns, periodontal-, in restorative dentistry (Pameijer), 663
program, maxillofacial, at Indiana University School of Dentistry and Medical Center (Chalian), 636
reconstruction following maxillectomy (Hildestad), 637
therapy, effective: orofacial dyskinesia (Sutcher et al.), 252
Prosthodontic(s), American Board of (Laney), 926
approach to edentulous patients (Roberts), 493
Congress, First International (Farrell), 106
contributions of gnathology to (Stuart), 607
failure, fixed, causes and prevention of (Brown), 617
fixed, diagnosis and treatment planning for (Brehm), 876
multiple uses of plastic template in (Krug), 838
new dental cements and (Jendresen), 684
modern, therapeutic alternatives in: saddle-extension bridges (Wedendal), 560
patients, emotional aspects of (Pilling), 514
and periodontics, comprehensive treatment rationale combining (Calagna), 781
phase of: maxillofacial prosthetics (Laney), 630
preventive (Payne), 491
psychologic aspects of (Grieder), 736
and single-concept film (Travaglini), 640
successful complete denture (Heartwell), 612
treatment, human factors in (Koper), 678
Prosthodontist, maxillofacial, what, should know about tumors (Heartwell), 825
Proximal contacts in posterior teeth and factors influencing interproximal caries (Gohil et al.), 295
Proximal—Cont'd
permanent deformation under occlusal stress. Influence of cavity design, heat treatment, and cementation on MOD gold inlays (Mondelli and Vieira), 882
Psychologic aspects of prosthodontics (Grieder), 736
Pulp, dental, stress transfer to, by retentive pins (Trabert et al.), 808
effect on, growth of bacteria and: cavity treatment with microbicidal fluoride solution (Brännström and Nyborg), 303

R

Radioactive sources, fabrication of prosthesis for guiding and fixing, in treatment of cancer of floor of mouth (Fine et al.), 349
Radiograph, TMJ, what we really see in (Weinberg), 898
Radiographic interpretation of calcified stylomandibular and stylohyoid ligaments (Goldstein and Scopp), 330
testing of metal castings for use in dental implants (Smith), 335
Radiotherapy, role of dentist in (Santiago), 196
Radium mold, retreatment of recurrent nasopharyngeal malignancy using (Deutsch et al.), 315
Readers' round table, 109, 227
Recording procedures, mandibular movement, instrument selection and (Mensor), 659
techniques, centric relation: comparative investigation (Kantor et al), 604
Reflex functions of temporomandibular joint (Storey), 830
Registering interarch transfers, variations in, in removable partial denture construction (Hall), 548
Registrations, centric relation, influence of neuromuscular conditioning on (Calagna et al.), 598
Rehabilitation, cleft palate, tissue bar and Ceka anchor as aids in (LaVelle and Zach), 321
full-mouth, remounting procedure for completion of (Lucia), 679
Relation, centric, and centric occlusion in dentulous subjects, comparison of condylar position in (Hoffman et al.), 582
temporomandibular joint function and its effect on (Weinberg), 176, 673
recording techniques, centric: comparative investigation (Kantor et al.), 604
registrations, centric, influence of neuromuscular conditioning on (Calagna et al.), 598
Reline materials, intermediary temporary soft, effect of common agents on (Klingler and Lord), 749
Relining of complete dentures (Boucher), 521
Remounting procedure for completion of full-mouth rehabilitation (Lucia), 679

Removable partial dentures, mandibular, major connectors for: design and function (Henderson), 532
Repair of loose tooth, evaluation of induced extrusion in (Klingsberg), 74
Re-rehabilitation, oral, problems in (Pruden), 558
Resin, acrylic, simplified waxing of veneer crowns to receive (Fellman), 461
cold-curing, impression border molding with (Smith), 914
composite, for Class II restorations, observations on: three-year report (Phillips et al.), 891
vs. amalgam, one-year and two-year clinical evaluation of (Osborne et al.), 795
fluid, permanent-base denture technique using (Browning), 468
foundations, reinforced composite, for endodontically treated teeth (Steele), 816
polycarbonate, and its use in matrix technique for temporary coverage (King et al.), 789
processing, fluid denture, in rigid mold (Koblitz et al.), 339
splint, composite, amalgam and, for posterior teeth (Liatukas), 173
Response, initial therapeutic, influence of first symptom on: temporomandibular joint syndrome (Carraro et al.), 87
Restoration(s), anterior tooth, esthetic factors in (Culpepper), 576
Class II amalgam, fracture strength of, condensed over protective bases (Vieira and Mondelli), 166
observations on composite resin for: three-year report (Phillips et al.), 891
dowel and core, principles of preparing endodontically treated teeth for (Stern and Hirshfeld), 162
fixed and removable, masticatory efficiency of, comparative evaluation of, replacing mandibular first molars (Nagasawa and Tsuru), 263
functional and cosmetic, of massive orofacial defect (Lepley and Strauss), 635
gold, parallel pins in (Göransson), 492
personalized, vs. plates (Fisher), 513
Restorative dentistry, complete (Miller), 675
periodontal-prosthetic patterns in (Pameijer), 663
procedures, orthodontics for (Seide), 56
point of significance in planning: occlusion (Beyron), 641
systematic approach to, in physiologic occlusion (Blagbrough), 573
system, ultraviolet light polymerized: clinical report (Heyde), 693
Retainer, intracoronal semiprecision, for removable partial dentures—Thompson dowel (Koper), 759
loose terminal abutment (Mallin), 91
Retention, additional, for acrylic veneer crowns (Buckner), 459
Retention—Cont'd
pin, cyanoacrylates in (Rakow and Light), 311
Retentive clasp arms, wrought-wire, construction techniques for, as related to clasp flexibility (Brudvik and Wormley), 769
pins, different dental amalgams and, interface between, qualitative study of (Khowassah and Denehy), 289
stress transfer to dental pulp by (Trabert et al.), 808
Ridge section of cast, edentulous, accurate adaptation of porcelain pontic to (Mason), 99
Roots, endodontically treated, complete denture construction on alveolar process containing (Maurer), 756

S

Saddle-extension bridges: therapeutic alternatives in modern prosthodontics (Wedendal), 560
Safety, industrial, and biocompatibility, Part II. Evaluation of nonprecious alloys for use with porcelain veneers (Moffa et al.), 432
Screw-threaded crown posts, investigation of resistance to stress of (Messing and Wills), 278
Semiprecision retainer, intracoronal, for removable partial dentures—Thompson dowel (Koper), 759
Soft reline materials, intermediary temporary, effect of common agents on (Klingler and Lord), 749
Soldering porcelain-fused-to-metal fixed partial dentures (Chandler and Brudvik), 918
Space problems, bounded, case analysis in solution of (Friedman), 668
Splint, amalgam and composite resin, for posterior teeth (Liatukas), 173
attachment of, to enamel of lower anterior teeth (Rochette), 418
permanent, of highly mobile teeth (Fusayama), 53
Statistics, meaning of, in dental literature (Wagner), 446
Stomatitis, denture, microbiologic studies on (Van Reenen), 493
Strength, fracture, of Class II amalgam restorations condensed over protective bases (Vieira and Mondelli), 166
Stress, investigation of resistance to, of screw-threaded crown posts (Messing and Wills), 278
occlusal, proximal permanent deformation under. Influence of cavity design, heat treatment, and cementation on MOD gold inlays (Mondelli and Vieira), 882
transfer to dental pulp by retentive pins (Trabert et al.), 808
Stylohyoid ligaments, calcified stylomandibular and, radiographic interpretation of (Goldstein and Scopp), 330

Stylomandibular, calcified, and stylohyoid ligaments, radiographic interpretation of (Goldstein and Scopp), 330
Subperiosteal and endosteal blade implants (Gershkoff), 611
implants, clinical and histologic assessment of (Mack), 516
Subspecialty, controversial—maxillofacial prosthetics (Matalon), 628
Surfaces, artificial occlusal (von Krammer K.), 391
gold occlusal, and organic occlusion in denture construction (Elkins), 94
modified artificial occlusal (von Krammer K.), 394
Surveyed crowns (Chandler et al.), 775
Surveyor, reproduction of tilt of cast on (Kaloyannides), 465
Symptom, first, influence of, on initial therapeutic response: temporomandibular joint syndrome (Carraro et al.), 87
Syndrome, temporomandibular joint: influence of first symptom on initial therapeutic reseponse (Carraro et al.), 87
System, ultraviolet light polymerized restorative: clinical report (Heyde), 693

T

Technique(s), centric relation recording: comparative investigation (Kantor et al.), 604
construction, for wrought-wire retentive clasp arms as related to clasp flexibility (Brudvik and Wormley), 769
for easy removal of tight castings from Dentoform teeth (Zakaria), 347
matrix, polycarbonate resin and its use in, for temporary coverage (King et al.), 789
modern oral preventive (McNeill), 567
permanent-base denture, using fluid resin (Browning), 468
precision, in partial denture prosthesis (Przetak), 520
Teeth, abutment, methods of handling, in Class I partial dentures (Nally), 561
Dentoform, technique for easy removal of tight castings from (Zakaria), 347
endodontically treated, principles of preparing, for dowel and core restorations (Stern and Hirshfeld), 162
reinforced composite resin foundations for (Steele), 816
highly mobile, permanent splint of (Fusayama), 53
lower anterior, attachment of splint to enamel of (Rochette), 418
malposed anterior, treatment of, in adults (Ross), 43
porcelain denture, methods for polishing, evaluation of (Morrow et al.), 222
posterior, amalgam and composite resin splint for (Liatukas), 173
proximal contacts in, and factors influencing interproximal caries (Gohil et al.), 295
Template, plastic, multiple uses of, in fixed prosthodontics (Krug), 838
Temporary coverage, polycarbonate resin and its use in matrix technique for (King et al.), 789
soft reline materials, intermediary, effect of common agents on (Klingler and Lord), 749
Temporomandibular joint dysfunction, patients with, personality correlates of (Gross and Vacchiano), 326
function and its effect on centric relation (Weinberg), 176, 673
physiology related to occlusal reconstruction (Martignoni), 588
problems, pharmacology of agents used to treat (Gangarosa), 80
reflex functions of (Storey), 830
syndrome: influence of first symptom on initial therapeutic response (Carraro et al.), 87
Terminal abutment retainer, loose (Mallin), 91
dentitions, exceptional or, classification utilized in treatment of (Fiset), 526
Testing, radiographic, of metal casting for use in dental implants (Smith), 335
Therapeutic alternatives in modern prosthodontics: saddle-extension bridges (Wedendal), 560
response, initial, influence of first symptom on: temporomandibular joint syndrome (Carraro et al.), 87
Therapy, effective prosthetic: orofacial dyskinesia (Sutcher et al.), 252
Thompson dowel—intracoronal semiprecision retainer for removable partial dentures (Koper), 759
Threaded crown posts, screw-, investigation of resistance to stress of (Messing and Wills), 278
Through eyes of editor (Boucher), 1, 123, 237, 363, 731, 857
Tilt of cast, reproduction of, on surveyor (Kaloyannides), 465
Tissue bar and Ceka anchor as aids in cleft palate rehabilitation (LaVelle and Zach), 321
TMJ radiograph, what we really see in (Weinberg), 898
Tooth, loose, repair of, evaluation of induced extrusion in (Klingsberg), 74
mobility, abutment, effects of removable partial dentures on: clinical study (Goodkind), 139
changes in response to occlusal interferences (Noble and Martin), 412
preparation and coping design: porcelain fused to metal (Hobo and Shillingburg), 28
restoration, anterior, esthetic factors in (Culpepper), 576
supported complete dentures, immediate interim (Morrow et al.), 695
denture (Brewer), 703
Transfer(s) coping, special, for better-contoured crowns (Weissman), 274

Transfer(s)—Cont'd
interarch, variations in registering, in removable partial denture construction (Hall), 543
Treatment of cancer of floor of mouth, fabrication of prosthesis for guiding and fixing radioactive sources in (Fine et al.), 349
cavity, with microbicidal fluoride solution: growth of bacteria and effect on pulp (Brännström and Nyborg), 303
of exceptional or terminal dentitions, classification utilized in (Fiset), 526
heat, cavity design, and cementation, influence of, on MOD gold inlays. I. Proximal permanent deformation under occlusal stress (Mondelli and Vieira), 882
of malposed anterior teeth in adults (Ross), 43
planning, diagnosis and, for fixed prosthodontics (Brehm), 876
prosthodontic, human factors in (Koper), 678
rationale, comprehensive, combining prosthodontics and periodontics (Calagna), 781
Trimming, cast, criteria and procedures for (Miller and Burch), 843
Tumors, what maxillofacial prosthodontist should know about (Heartwell), 825

U

Ultraviolet light polymerized restorative system: clinical report (Heyde), 693
United Kingdom, complete denture construction in (Murphy), 566

V

VA health care delivery: its relation to dentistry (Johnson), 487
Veneer(s) crowns, acrylic, additional retention for (Buckner), 459
simplified waxing of, to receive acrylic resin (Fellman), 461
porcelain, evaluation of nonprecious alloys for use with. Part I. Physical properties (Moffa et al.), 424
Part II. Industrial safety and biocompatibility (Moffa et al.), 432

W

Wax pattern, evaluating crown contours of (Burch and Miller), 454
Waxing, simplified, of veneer crowns to receive acrylic resin (Fellman), 461
Wire retentive clasp arms, wrought-, construction techniques for, as related to clasp flexibility (Brudvik and Wormley), 769
Wrought-wire retentive clasp arms, construction techniques for, as related to clasp flexibility (Brudvik and Wormley), 769
